

THE NATIONAL TRUST – EAST ANGLIA REGION – SITE RISK ASSESSMENT

PROPERTY: Wimpole

LOCATION:
Farm

MANAGING AGENT: Philip Broadbent -Yale

ACTIVITY: School visits

Relevant Model Assessments:

Description of Activity: Directed Education activities

Nature of Hazard	Worst Outcome	Groups at Risk	Current Precautions	Estimation of Risk	Further Precautions
Contact with farm animals	Infection or injury.	Anyone having contact with animals. Particularly pregnant women.	Visiting groups are sent an advice sheet on 'avoiding ill health after farm visits' on booking. They are required to return a form stating that they have circulated this information and briefed the children prior to the visit. The form deals mainly with advice on hand washing, protection of cuts and the close supervision of children. In addition children are not permitted to handle or bottle feed new born lambs.	Low if advice is followed.	1. Refresh these procedures with Education volunteers at the start of the new season.

Nature of Hazard	Worst Outcome	Groups at Risk	Current Precautions	Estimation of Risk	Further Precautions
Trips or falls	Sprains bruises or fractures.	Students, Teachers, other adults and Education Staff and volunteers.	<ol style="list-style-type: none"> 1. Students to be well supervised when moving around the farm and Education Building. 2. Students to be briefed on behaviour before visit to farm see attached advice to teachers' sheet. 3. First aid equipment and qualified first aiders are available at the farm. 4. Any accident or near miss to be reported to a member of staff. 	Low if advice is followed.	<ol style="list-style-type: none"> 1. Refresh these procedures with Education volunteers at the start of the new season.
Fire or similar occurrence requiring emergency evacuation.	Serious injury or death.	Anyone in the vicinity of a fire.	<ol style="list-style-type: none"> 1. Education volunteers and staff to know procedures for emergency evacuation of the farm. 2. All volunteers and staff to be aware of location of fire alarms and extinguishers. 3. Fire precautions and first aid advice displayed on education notice boards. 4. Fire extinguisher available in Farm Education Building. 	Low	<ol style="list-style-type: none"> 1. Refresh these procedures with Education volunteers at the start of the new season.

Nature of Hazard	Worst Outcome	Groups at Risk	Current Precautions	Estimation of Risk	Further Precautions
			5. Electrical equipment undergoes annual safety check.		
Injury through lifting or moving equipment	Sprains or chronic back injury	Education staff or volunteers	<ol style="list-style-type: none"> 1. Education staff/volunteers to receive a leaflet on how to lift safely. 2. Education volunteers to be requested to inform Education Officer of any health problems related to moving equipment 	Low if advice followed and those with related health problems do not lift	<ol style="list-style-type: none"> 1. Refresh these procedures with Education volunteers at the start of the new season.
Volunteers working with education groups.	—	Education groups	<ol style="list-style-type: none"> 1. All volunteers applying to work with school groups to be interviewed by Education staff and references taken up as detailed in attached procedure. 2. All volunteers to be issued with a copy of the Trusts leaflet 'Safe and Sound' and other relevant Health and Safety information. 3. Every group of children to be accompanied by an 	Low if all correct procedures for recruitment of volunteers are followed	<ol style="list-style-type: none"> 1. Ensure procedures for recruiting volunteers are in line with current National Trust policy. 2. Ensure volunteers are aware of current procedures when working with children. 3. Ensure volunteers are following current procedures. 4. Refresh volunteers on current procedures in time for the start of the new season.

Nature of Hazard	Worst Outcome	Groups at Risk	Current Precautions	Estimation of Risk	Further Precautions
			adult from the school. Staff and volunteers not to be in a 1:1 situation with a child.		5.
Handling farm artefacts, making scarecrows.	Cuts or bruises	Children or Education Staff and volunteers.	<ul style="list-style-type: none"> • Education staff only allow children to touch artefacts without sharp edges, and only under close supervision. • Gardening gloves are used when using concrete millstones to grind corn. • Heavy items are not lifted by children and are moved by staff with care. • Equipment on display is not left unattended. • If an unstable object such as a plough or scarecrow is to be on display it must be securely tied or stabilised so that it cannot fall or be knocked over. 	Low	1. Refresh these procedures with Education volunteers at the start of the new season.
Consumption of butter during a dairy maid	Stomach upset	Education groups taking part	Staff running activity to stress to participants that the butter produced in this	Low if this advice is followed.	1. Refresh these procedures with Education volunteers at the start of the new season.

Nature of Hazard	Worst Outcome	Groups at Risk	Current Precautions	Estimation of Risk	Further Precautions
demonstration		in workshop	workshop is not fit for human consumption, as it is not produced in hygienic conditions.		2. Suggest that this simple method of making butter can be followed at home.
Allergy to any components of the bread made during harvest week	Allergic reactions/a naphylactic shock.	People developing allergic reactions when exposed to the allergens.
